# FUNDAMENTAL ELECTROHOMOEOPATHY BOOKS

Dr. Amit Singh, working in the field of Sarsaparilla for last 10 years and he had examined the process in depth and had set a to do programme to reduce all types of diseases by giving the right weight and form to the Sarsaparilla. He is well acquainted with many important aspects and has formulated many one of the great medicines of Sarsaparilla in many Pro. King, Romania. He also received and introduced unique art of diagnosis of HIS analysis in India with the help of world renowned Holopist Mr. John Andrew. The subject was often discussed with Dr. John Andrew, a Naturopath from USA to consider and spread it as the way of diagnosis in Electrohomoeopathy Medical System.

Dr. Amit is happy to work on the concept oriented medicine, so that the art of healing becomes inexpensive and free from all the analysis. His name article has been published in the leading magazine of homeopathy journal. He had conducted his lectures in many countries like Italy, Germany, Pakistan, Sri Lanka, United Kingdom, UAE, Sweden, Norway and continue in his efforts. His vision is to re-establish the foundation methodology and ancient science and medical research in the light of modern technology.

John is recognized around the world for his contribution to the field of homeopathy, and is invited to lecture throughout the UK including in London, Leeds, York & at the clinic in Brno, Czech Republic, France, Mexico, Belgium, Ireland, Italy, Brazil, South Africa, Canada and the USA for many different medical bodies, homeopathy associations, conferences, naturopathic colleges and institutions. John is involved in several homeopathy research initiatives both in the UK and internationally, and at his numerous seminars you will be able to share his latest findings and learn how they can help you practically.

Even though his course and lecture content can appear very complex and technical, John is acknowledged as having the ability to convey and present information in a very holistic, digestible and understandable manner, which is always delivered with clarity, enthusiasm and a passion for the subject. John received a standing ovation for the presentation of three hours of his material at the 5th Annual Homeopathy Congress of America in Cincinnati and at the Third Annual IFA Symposium in February 2006.

Recently at the 8th Annual homeopathy congress of America John's 3 hour keynote presentation on the inner pupillary border received another standing ovation.

He is actively involved in several homeopathy research initiatives in the UK and across the world. His innovative and scientific contribution to the advancement of homeopathy was internationally recognised in Sao Paulo in Brazil in 2004 with the presentation of the Iguaçu Voto Pecado Award in June 2007. John was honored with the 'Tribute of the Year 2007' Award in the USA by the International Homeopathy Practitioners Association.

Mr Andrew's lectures on homeopathy, including the integration of anatomy and endocrinology, throughout the UK, USA, Mexico, Europe, Brazil & South Africa and India with inspired content.

He is also the author of seven books on homeopathy, including the recently published 'Endocrinology & Homeopathy and Immunology & Homeopathy in 2010'. He has two further books pending on modern herbal medicine and on the combining of the clinical experience & homeopathy research with chronic fatigue syndrome, both pending publication for the 2009 & 2010.

His work is renowned for bridging the gap between natural and orthodox medicine via homeopathy. In addition to this John is the Editor of the Advanced Homeopathy Research Journal and author of over 20 research papers in homeopathy in addition to 24 international C.D.M.D.s.

He is a frequent lecturer in North America, including the latest technology in homeopathy, with herbal medicine, immunology and other related natural health approaches.

John Andrew's training in homeopathy, in both basic & advanced homeopathy, plus areas of natural medicine - his course is recognised as the most comprehensive & readable of study available in the world today.
